<u>Monday 23rd March</u>

Good morning everyone. I hope you have all had a lovely weekend and are ready to start your home learning.

<u>Maths</u>

This week we will be recapping multiplication and division as well as addition and subtraction. I will be adding a Flashback 4 which will relate to work we have already covered. Don't forget the clock in the corner.

Write down your 3x and 4x tables then the division facts that relate e.g.
3 x 4 = 12
12 ÷4 = 3
12 ÷ 3 = 4
If you know your x table target is 8x, do that too.

There are lots of songs relating to x tables. Perhaps you could find one you like and learn your tables that way.

<u>English</u>

If you can get out for a walk, write about what you can see. Can you make simple sentences more interesting by adding verbs, adjectives and adverbs? If you can't get out, what can you see out of the window? Who can make the best sentence? You or your grown up? I bet I know who will win.

a naming word (noun) e.g. cat, house, bed
a doing word (verb) e.g. run, talk, eat
a describing word (adjective) e.g. huge, green, polite
a word that describes a verb (adverb) e.g. quickly, slowly, happily

<u>Get Active</u>

If you can, join in with Joe Wicks who will be holding live PE lessons for children at home. They are on at 9am every morning and can be found on his YouTube channel.

If you are unable to do his lessons, make sure you have active time throughout the day. This is really important for both health and wellbeing.

- Go for a walk, cycle or scoot
- Learn to skip, if you can't do so already
- Grab a football, basketball or even a tennis ball. Be creative with the amount of different ways you can play with this. Throw it, bounce it or kick it. I'm sure you will come up with lots of ideas.

Don't forget to take photos of anything you do. If you send them to Mr. Graham or myself, we will put them on the website.

If you have any questions or queries get in touch. Even though you are at home, we are always here to help.

Mrs Lambert
