

LEARNING LIBRARY

Specialist equipment and toy library service for children and adults of all ages who have additional needs and learning difficulties

OUR SERVICE IS FREE TO FAMILIES

The Learning Library is a registered charity that provides the unique service of loaning out specialist equipment, sensory items and toys to children and adults with additional needs or learning disabilities across County Durham.

Our members are encouraged to make their own choices if possible from our wide ranging resources, however Outreach Workers are available to help and advise. Our items help members to broaden their educational and emotional development whilst having fun. Our friendly and supportive outreach workers visit members in their own home to discuss individual needs and will deliver the items to your door.

There are photographs of the items we have available within the Albums Section of our Facebook Page.

Please contact us if you are interested on accessing the service.
