

Outdoor Play & Learning

This year we have invested over £10,000 on our OPAL shed, our mud kitchen, storage and staff training to make playtimes more fun and energetic. We have all had some fun playing with our new den building, mud kitchen and reading shed in the shade at lunch time as well as some water painting, hula hooping and dancing. Our Y5 play leaders are doing a great job at organising things so everyone can have fun together. We are still collecting kitchen pots and pans or plastic bowls for our mud kitchen as well as pegs, sheets and tarpaulin for our den building. If you have any small world toys such as cars, figures etc that you are throwing away, then please also consider us first!

Shades & Shorts Day Thursday 14th July

It's been a scorcher so far this week and it's looking to stay hot so on Thursday, we would like to invite all of our children to come to school in their shorts and shades to stay (and look) cool while they play.

Donations of £1 and/or any of the things above would really help us to stock up on lots more fun things for our outdoor play.
